

### Brief Intro

I'm a developer and computer science graduate, with a focus on web development. I have experience building a full web stack from the ground up with Express.js and PostgreSQL. I enjoy solving problems and want to work on challenging projects in data engineering, software development, or analytics.

### Skills

- JavaScript / TypeScript
- Node.js / Express
- PostgreSQL
- Git / GitHub
- React.js / Next.js, HTML / CSS

### Languages

- Icelandic – native
- English – fluent
- Spanish – intermediate

# Helgi Freyr Davíðsson

Developer / Computer Science Graduate

## Experience

**Programming Teacher** 2026

Tjarnarskóli

Teaching web programming (HTML, CSS, JavaScript) at primary school level; designing assignments and guiding students in web fundamentals.

**Systems Administrator** 2025 - 2026

University of Iceland, Student Union

Develop and maintain backend and frontend systems, manage digital platforms, ensure reliability, collaborate with boards.

**Bar / Tap Refill** 2023 - 2025

Ölgerðin Egill Skallagrímsson

Responsible for tap refills, ordering stock through the inventory system, and keeping beverages consistently available.

**Reception Lead** 2019 - 2023

Golf Club of Mosfellsbær

Member reception, retail sales and guest relations, bookings and membership administration.

## Projects

**Map in Color** (mapincolor.com) 2023 - present

A platform to create, discover, and share maps built from data: numeric or categorical maps, import from CSV/TSV/Excel, discovery and sharing. Try it without signing up.

## Education

**B.Sc. in Computer Science** 2023 - 2026

University of Iceland, graduated 2026

**Exchange in Computer Science** 2025

Universidad Complutense de Madrid

**Secondary School** 2018 - 2022

Framhaldsskólinn í Mosfellsbæ
