Brief introduction

Recent BSc graduate in Computer Science from the University of Iceland with about eight years of programming experience. I have broad experience in full-stack development and taking projects from idea to complete, user-friendly, and reliable software. I have also worked in domestic and international teams using Agile methods, Git, and iterative software development, and I place strong emphasis on continuous learning, security, and solid craftsmanship.

Experience

Programming Teacher Tjarnarskóli 2026

Teaching web programming (HTML, CSS, JavaScript) at primary school level.

Systems Administrator Nörd, student association at the University of Iceland 2025 - 2026

Backend/frontend, digital platforms, reliability, and collaboration with boards.

Other experience

Projects

Mixpath (mixpath.app) 2025 - present

DJ software: collection as a network, set paths from BPM and key.

Map in Color (mapincolor.com) 2023 - present

Platform to create, discover, and share data maps (CSV/TSV/Excel, choropleth).

Education

B.Sc. Computer Science 2023 - 2026
University of Iceland

Exchange 2025
Complutense

Matriculation 2018 - 2022
FMOS

Skills

Frontend

Backend & databases

Auth & services

Security

Mobile & testing

Data, algorithms & scripting

Systems & theory

Tools & workflow

Languages

Icelandic – native

English – C2

Spanish – B1

Interests

Golf

DJ & production

Travel
